

Marcel G. Nozes WOLF was in touch with LEWKOWITZ in the affairs of N.V. MONTAN EXPORT. This WOLF is one of the most notorious racketeers and arms traffickers in Europe. In the past he made enormous profits out of selling arms to Republican Spain, during the civil war, in which enterprise he was in close and cordial relationship with Soviet Russia, the Third International and the Communists in Paris. Having regard to what is known about WOLF, it is only a wise precaution to assume that he will turn any secret information which may come into his possession to his own advantage.
